CAPITAL, COMPANY'S RUPEES, ONE MILLION.

THE Undersigned, as Agents for this Office, continue to effect Marine Insurances, and to grant Policies on behalf of the Company, payable in the Colony, or in London, Calcutta, and China, at the option of the assured.

SYDNEY FIRE INSURANCE COMPANY.

Chairman:—MR. T. W. SMART.
Deputy Chairman:—MR. CHARLES KEMP.
Directors:—
MR. THOMAS HOLT, JUN.
MR. ROBERT PORTER.
MR. R. M. ROBEY.
MR. W. R. SCOTT.
Surveyor:—MR. JAMES HUME.
Secretary:—MR. GEORGE KING.

THE attention of the public is called to the advantages of insuring their property in the above Company, and also to the recent alterations made in the Deed of Settlement.

1st. The assured are entitled not only to a participation in a division of the profits, after reserving a fund of £10,000, but also to an interest in the Capital of the Company, in proportion to the amount of premiums paid.

2nd. The low rates of premium, being on ordinary risks about one half those charged by the English Companies, without any additional expense for stamps or the policy.

3rd. The very ample security to the assured, considering the average amount of losses sustained by fire.

4th. The liability of the members, which is limited in the most extreme cases that could possibly arise to four times the amount of premium paid, a sum which, though insignificant to each one separately, forms collectively a considerable amount.

5th. The repeal of the 14th clause of the deed of settlement, commonly known as the average clause, so that in future losses would be made good in terms of the Deed, according to the actual loss sustained, without any reference to the amount insured upon the property, or the value thereof, or the amount saved.

6th. The repeal of the 22nd clause of the Deed of Settlement, prohibiting the transfer of policies—there is now nothing to prevent mortgagors and others from transferring their interest in policies in this Company to whomsoever they please.

7th. The funds of the Company are to be invested in Government securities, and no portion can be employed in discounting private bills.

Applications for insurances will be received at the offices of the Company, No. 14, Jamison-street.

GEORGE KING, Secretary. 1585

WRECK OF THE BRIG "GUIDE."—Intelligence reached town on Thursday afternoon that the brig *Guide*, from Sydney, had been wrecked during the previous night near the pah at Wakapuaka, about fifteen miles from Nelson, on the eastern shore of the Bay. The Collector of Customs, and Cross, the pilot, accompanied by two or three gentlemen, immediately proceeded to the spot; and on the following morning, at six o'clock, about thirty of the militia, who had volunteered for the purpose, went down by land, accompanied by the Captain Commandant, Lieutenant Bell, and the Rev. C. L. Reay. The return of the first party this day enables us to give the following particulars:—The brig *Guide* was anchored in Taranaki roadstead on Wednesday, and her owner on shore. In the afternoon, the weather wearing a threatening aspect, the captain determined to come on to Nelson, as he had cargo for this place, and accordingly set all possible sail, and ran for Blind Bay. At midnight he took in sail and hove to, as he believed himself to be well down and in the middle of the bay; as the vessel had steered badly, he was mistaken in the last supposition. About two o'clock a cry of land was given, but the wind, which was now blowing a heavy gale from the north, made it impossible to get sail on the vessel, nor could such an old cranky ship stand against it. An opening was seen in the hills, which the captain believed to be either the French Pass or Croixelles, and he had therefore, as he states, no alternative but to clap on sail and run in. The vessel was carried safely by a high sea over the bar into Wakapuaka harbour, and beached within a hundred yards of the pah, where at low water she is high and dry. When the first party from town reached on Thursday evening, neither ship nor cargo had taken any damage; but the slight bumping she received, as the tide rose during the night, loosened several seams, and she now makes a few feet of water at each tide, which leaves her again at low water. Had the vessel been of ordinary strength, this would not have occurred; instead of which, she is well known as being old and scarcely seaworthy, requiring the constant use of the pumps all the time she is at sea. The greater part of the cargo has been landed safely and placed in the pah, from which it will be removed in coasters to this place. The cattle have been driven into the Happy Valley, but the sheep were too weak to accompany them. Messrs. Bett and Sons, the consignees, are exerting themselves in repairing the ship, that an attempt may be made at the next spring tides to get her off and bring her to Nelson, where, we suppose, she will undergo a survey. The number of cattle and sheep shipped was, of the former, forty-three, and thirty-four of the latter. Of those, thirty-five head of cattle were landed, and twenty-six sheep. The cargo consists mostly of flour, sugar, rice, manufactured goods, and general merchandise. The flour, we believe, has received the greatest amount of damage. It was, perhaps, a fortunate circumstance that one of the resident chiefs at the pah, Parramatta, well known as a turbulent character, was from home, or he might have caused some trouble. The natives at present there exerted themselves in the most praiseworthy manner in assisting to unload the vessel, and in taking care of the cargo.—*Nelson Examiner, January 24.* [The Captain of the *Mary Catherine*, which arrived at Wellington on the 2nd of February, stated that the *Guide* had since gone to pieces.]

The *Sovereign* has brought 125 bales wool, 30 bundles sheepskins, &c. The *William*, schooner, arrived there on the 13th. The *Skerne* had not arrived there.

The schooners *Susannah Ann* and *Comet* were both advertised at Wellington, for Sydney, the latter *via* Auckland.

The *Angelina* was towed to sea yesterday by the *Cornubia*, and the *St. George* by the *Thistle*.

The *Lightning* has brought a full cargo of salt from Cadiz. She spoke the cutter *Royal William* on the 17th instant, from New Zealand to Adelaide.

The barque *Seymour* and ship *Ulverstone* were both advertised to leave Liverpool for Sydney direct, the former about the middle of November, and the latter on the 1st December.

H.M.S. *North Star* will leave for England tomorrow, the despatches, for which it was expected she would have to wait for some fortnight longer, having been sent on per *Mauhin*. The *North Star* will touch at the Cape on her way home.

"Sworn to no master, of no sect am I."

NEW ZEALAND.

WE have received per *Bee*, Wellington papers to the 4th February, inclusive; but they contain no intelligence whatever as to the state of affairs in New Zealand. Indeed, the inhabitants in that part of the country appear to have been at that date in utter ignorance as to what had transpired near the seat of Government—their latest intelligence having reached them *via* Sydney, and being contained in two paragraphs extracted from the shipping columns of our paper. The papers complain loudly that the mails are sent to Auckland from Sydney, and there kept an inordinate time before they are forwarded to the other settlements, instead of being sorted in Sydney and sent to their destination direct as occasion occurs. At Wellington the sixth anniversary of the colony was celebrated by aquatic and other amusements.

A few extracts will be found elsewhere.

SWIMMING MATCHES.

THE second swimming matches of this season came off at the Baths in Woolloomooloo Bay on Saturday morning, at 7 A.M.

The first match, confined to subscribers to the baths, was for a handsome silver cup, value £8 8s., for the first prize; an elegant gold medal, value £3 3s., for the second. Distance 440 yards.

The morning was much more favourable for the sport, being mild and calm, and the Bay quite smooth. At the hour named, the following four gentlemen appeared at the steps ready for a start:—

Mr Alister M'Lean ....Tartan Cap ...1
Mr. Johnstone ....Green 2
Mr. Thornton ....Yellow 3
Mr Alexander Ramsay..Red 4

At the word off, Mr. M'Lean took the lead and maintained it throughout the race, rounding the buoy first, and increasing his distance on the road home from Mr. Johnstone, who swam a very good second.

Time: Mr. M'Lean, 8 minutes 15 seconds; Mr. Johnstone, 8 minutes 45 seconds. The winner swimming the distance in 28 seconds less than in the public match last Saturday, but the state of the weather must be taken into consideration.

The second match, for all lads under twelve years of age; distance, 100 yards. Prize, a handsome silver medal.

		m.	sec.
Master Unthank, yellow, first;	time	2	40
Master M'Lean, tartan, second;	„	2	47
Master Ramsay, blue.			
Master Nicholls, green and striped.			

The boys swam well; and a match is spoken of between the winners of last Saturday and this match.

Third match for divers, open to all; the match to be decided by heats; the divers reaching the surface at the greatest distance from the start, two heats out of every three, to be declared the victor. A distance buoy being moored at about twenty yards from the baths, beyond which the divers had to appear in each heat, or be declared distanced. The entrances were four; the result as under:—

Mr. Redman..first heat, fourth; second heat, first; third heat, first.
Mr. Dogherty..first heat, first; second heat, second; third heat, second.
Mr. Hatch....first heat, second; second heat, rose within the distance buoy.
Mr Smith ....first heat, third; second heat, rose within the distance buoy.

This match created great interest; the time was curious; the winner's longest dive was done in fifty seconds. Mr. Dogherty remained below the surface the astonishing period of sixty-five seconds in his first and longest dive.

The distance dived was about 50 yards. The prize, a handsome Gold Medal, value £4 4s., was awarded to Mr. Redman, who at present has the honour of bearing the prize from those who have competed with him both in swimming and diving, this season.

Some rumour exists of a challenge to the whole colony, to be offered by the bath subscribers, who are a little elated that no one has yet appeared to beat them.

Some notice will no doubt be given should this challenge be made, and it is to be hoped that this manly exercise will be patronised by all who love athletic sports, and desire to see the colonial youth excel in that which in all parts of the world since the days of Leander has been considered a noble pastime, and that some first-rate swimmers will come out on the occasion.

SMALL BOILING-DOWN SHOPS.—A short time ago the attention of the City Council was directed by the Right Worshipful the Mayor to the numerous small boiling-down establishments which existed, as well as to the means which had been adopted for putting them down; and his Worship expressed his determination to give the proper officers every assistance in putting them down wherever they were nuisances. We would call especial attention to the numerous small butchers' shops which are in the city—some in George-street, not far from our office. From the want of all space and convenience, the impossibility in fact of preserving cleanliness, and carrying off offal, and the absence of water, these are perfect nuisances, and no passenger can go by without being immediately nauseated. There can be no necessity for such shops, or at all events more appropriate premises might be chosen for them. Those we allude to are nuisances, and before the police interfere it would be well for the parties themselves to recollect that at the last Quarter Sessions there was a conviction obtained against a butcher, his slaughter-house, although out of the city, being deemed a nuisance by a jury.

CIRCUIT COURTS.—The Circuits have been settled as follows:—*Berrima*—Monday, 2nd March; the Chief Justice. *Maitland*—Wednesday, 11th March; Mr. Justice Therry. *Bathurst*—Monday, 23rd March; Mr. Justice Dickinson.

COURTS OF REQUESTS.—His Excellency the Governor has appointed Charles Simpson, Esq., to be Commissioner of the Court of Requests for the district of Patrick's Plains; and Joseph Docker, Esq., to be Commissioner of the Court of Requests for the district of Scone and Murrurundi.

SALES AT MR. SAMUEL LYONS'S MART, THIS DAY.—We are requested to remind interested parties that Mr. Samuel Lyons sells, this day, at his Mart, at 11 o'clock, nine shares in the Sydney College; sundry shares in Sydney Public Companies; and two cottages in Castlereagh-street South, which may be considered as a most profitable investment.—*Communicated.*

WIRE'S TERRACE OF FIVE HOUSES, PARRAMATTA-STREET.—We are requested by Mr. Stubbs to remind landlords and capitalists that the above-named terrace, with Ruse's grant of 100 acres, and Calcott's of 60 acres, will be sold this day, at twelve o'clock precisely, the descriptions of which will be found in the *Sydney Herald* of this morning; at eleven o'clock, the important sale of hardware, all without reserve.—*Communicated.*

NEW SOUTH WALES BEEF.—The following is an extract from a letter to a mercantile house in Sydney, dated Leith, 27th September, 1845. "We have sent by this ship, the *Midlothian*, a cask of Port Phillip beef, imported here in July, 1844. It is even now in good condition, and it will prove to your colonists that only want of attention in the curing is the cause of their failure." The cask has been inspected by several parties here, and found perfectly sweet and sound. It was probably cured in 1843."

BOAT ACCIDENT.—About half-past one yesterday afternoon, a sailing boat belonging to Mr. Wake, of Bridge-street, in which was Mr. W. and a young man named Hasbury, when off Long Nose Point a gust of wind suddenly took her, and she immediately filled and sank. Mr. Wake saved himself by swimming, but the young man Hasbury was unfortunately drowned. The body has not yet been found.

POLICE COURT BUSINESS — SATURDAY.—There were thirteen cases on the lists, two of whom being for drunkenness, were admonished and discharged; there were four cases on the summons list, one of which was for an assault, in which, as the defendant did not appear, a warrant was ordered to issue; an apprentice named Joseph Sawyer, for disobeying the orders of his foreman, while serving under indentures, was sent to gaol for three days, and ordered to be fed on bread and water for that period; in one case for an assault the defendant was fined £4, and 6s. costs; and in the case for neglecting to teach a female apprentice, the hearing of the case was postponed till to-day. There were seven cases on the general list, four of which were old cases, viz, two for stealing, and two for receiving the stolen property,—all remanded; the new cases were, one for embezzlement, remanded; one for assault, dismissed, at the request of the prosecutor; and one for stealing a watch, was discharged, as the prosecutor admitted that he had pledged the watch for ten shillings.

DEATH BY DROWNING.—About nine o'clock on Saturday morning, the body of an aged female named Beatrice Burke was found floating in a waterhole near Mr. R. Crampton's residence, at the eastern terminus of the Parramatta Road. An inquest will be held on the body to-day.

NEWS FROM THE INTERIOR.

(From our Correspondent.)

MORETON BAY.

FEBRUARY 18.—We have had a regular sporting week, and the town has in consequence been all alive; in fact, the race course at Cowper's Plains was on the 12th a scene of real fun and genuine amusement. The great event of the day was a match for £50 a-side, made some time since by Lieutenant Seymour and John Campbell, Esq., the former backing his grey horse "Harkaway" against the latter gentleman's bay horse "Toby," to run two mile heats, carrying 10 stone each. "Harkaway," from having polished off some rum'uns at Bathurst previous to coming here, was backed by the knowing ones to win at 2 to 1. "Toby," who was beautifully trained by Mr. Beckley, had however admirers, and those odds were freely taken. On the horses showing on the course previous to starting, those odds, however, were not obtainable, and the result showed that the favourite was not all there. Mr. Alexander M'Donald jockeyed "Toby" beautifully, whilst "Harkaway" was handled by his old jockey Lewis. The word off was given a few minutes after twelve o'clock, the grey taking the lead at a fair pace; but when about one-third of the way round the first time, "Toby" was alongside, his jockey holding hard on passing the stand; at the first mile the bay was leading, and evidently increasing the pace; at the distance "Toby" had the lead, and evidently taking it easy, coming in first by several lengths; time four minutes six seconds. The result of this heat threw the knowing ones all abroad, showing them too plainly that the Campbells were not asleep when they made the match, still it was anticipated by a few that the grey horse would retrieve his honours in the next heat; but it was no go, "Toby" jumped away from the scratch, led, and finally won the second heat; I may say easy, without having felt either whip or spur. "Harkaway" was either out of condition or his powers overrated; time of second heat four minutes ten seconds. The performance of "Toby" in this his maiden match completely astonished the natives; and there is but little doubt he will at our next meeting take the shine out of a few more nippers. The day was beautifully fine, and the course in first-rate order, and the sun had declined in the far west before all the sporting gentlemen quitted the plains. The day was wound up by a champagne dinner at Davy Bows, when about thirty squatters, of the right sort, sat down to a first-rate spread, and ere midnight had run their various matches over again. The owner of "Toby," Mr. John Campbell, leaves us this steamer, intending to return to his native hills of heather. His departure will, I feel assured, be severely felt by the sporting community of Moreton Bay; he having upon all and every occasion stood ready with hand and purse to contribute towards a day of sport and jollification; in fact, I fear it will be long ere we see on our turf his like again.

A most daring outrage was committed a few days since by a ticket-of-leave holder, a man of colour, named Hendrick Nilnalder, upon the person of a Mrs. Gage, a respectable woman, residing a short distance from this township. From the deposition sworn to before the Bench by the prosecutrix, it appears she was returning home just before sundown, and when about half-way towards her residence at Breakfast Creek, the prisoner met her and suddenly snatched away a bundle she was carrying, and threw it in the grass alongside the road, and immediately commenced taking liberties with her, using most filthy language towards her. The poor woman says she screamed and struggled with the vagabond until her strength was completely exhausted, when the wretch effected his purpose by violating her person. The fellow also drew a clasp knife and threatened to cut her throat, when fortunately Captain Wickham and Mr. P. Leslie came riding up, and upon ascertaining what had occurred, pursued and apprehended the ruffian. Upon being asked by the Bench if he had any defence to make, he replied no; he committed the outrage out of revenge, for some spite he had towards the prosecutrix when he was in her husband's service a short time previous. He has been committed to take his trial for the offence.—A prisoner of the Crown named James Hastey, who had been committed to the lock-up under sentence of fifteen months to an ironed-gang, for conveying spirits into a confine, managed on the afternoon of the day he was confined to break out by getting through the ceiling of the cell, and made his escape to the bush, and has not since been heard of. Two others of our limited prison population have received sentence of twelve months each to ironed-gangs—one for stealing a gold ring, and the other boots. The government stock establishments, now on the eve of being broken up, will no doubt cause the withdrawal of these men from amongst us, and a diminution of many of those petty larceny tricks now practised upon us.

The schooner *William* came up to the settlement on the 13th, discharged her inward cargo, and is now at Kangaroo Point loading with wool and timber. A second steamer is much wanted to clear away some of the wool at present stored in the Company's Stores at South Brisbane. There is a cargo, I believe, awaiting the *Skerne's* arrival at her agent's; the *Golden Fleece* will, in all probability, go on to the Tweed for a cargo of cedar: from the large number of sawyers now employed at that river, there is every probability that every stick any way procurable for shipment will be cut in from three to four months, when we shall have to look further to the northward for another brush.

From the manner in which our salt beef was sent to the Sydney market last season, and the very remunerating prices obtained, arrangements are being entered into to cure a quantity the ensuing season; the cattle are in first-rate condition, and will no doubt, when packed, continue to deserve the brand A1 given to it. The prospects opening both to the grazier and sheep-farmer in this district are very encouraging, and from the universal enquiry for stations in this favoured locality, we need have no fear.

ORIGINAL CORRESPONDENCE.

HOSKING AND ANOTHER *V.* NORTON AND OTHERS.

To the Editors of the Sydney Morning Herald.

GENTLEMEN,—The report of the trial of this cause, contained in your paper of yesterday, appears to me to afford a presumption that I, as one of the trustees of a bond, given by the late Mr. Samuel Terry, to secure an annuity to Mrs. Edward Terry, pledged the bond in question for a sum of between £900 and £1000, and appropriated the money to my own use; to remove which, I have to request that you will allow me to offer the following explanations:—

The late Mr. Samuel Terry, in June, 1836, executed a bond in the penalty of one thousand pounds, to myself and Mr. S. F. Mann, to secure the payment of an annuity of £100 to Mrs. Edward Terry, during her life. In 1838, I purchased of Mrs. E. Terry, with other property, the above annuity; and some time afterwards, the executors of Mr. Samuel Terry advanced to me a sum of about £900, for which I gave my promissory note, with an understanding that the annuity I had purchased of Mrs. Terry should stand as a collateral security, and be suspended until the amount was repaid. The bond in question was not delivered up by me to the executors of Mr. Terry, but remained in my possession, and on my insolvency passed with my other papers into the hands of the trustees of my estate, who have instituted this action, in the name of myself and my co-trustee, against Mr. Samuel Terry's executors, and have recovered a verdict as stated in your paper.

From the above statement, which I am ready to verify, there could not have been at any time a misappropriation by me of any trust funds, as implied by the report of the trial, inasmuch as whatever moneys I received from the executors were received by me as the assignee of the bond, which, at that time, was my own property.

The insertion of this communication in your paper will be considered a favour by, Gentlemen,

Your obedient servant,
JOHN HOSKING.

NEW ZEALAND EXTRACTS.

(From late Wellington Papers.)

TE RAUPARAHA.—We are informed by a gentleman in whom we can place confidence, that Rauparaha has received a communication from Governor Grey, promising to protect him in his pahs and cultivations; but informing him that he must submit to the laws of England. Thus, whilst the settlers are without intelligence, and have been kept so for the space of ten weeks, or seventy days, the Governor can correspond with a native.

On Friday, the 30th January, a meeting was held at the Assembly Rooms, Barrett's Hotel, of the members of the Church of England, for the purpose of presenting to the Rev. R. Cole a silver service of plate, which has been purchased by subscription, to be presented to him on the occasion of his marriage, as a slight token of their esteem and regard. The service, which was neat and substantial, included a silver tea-pot, milk ewer, sugar basin and tongs, a dozen forks, half a dozen table spoons, a dozen dessert spoons, a dozen tea spoons, and a small waiter, the cost of the whole amounting to nearly eighty pounds.

TEMPERANCE.—The Total Abstinence people held their usual annual festival, on the evening of Thursday, the 22nd January. There was a pretty good attendance. A very good tea was provided, and that part of the proceedings ended, the other business was proceeded with. A chairman was chosen, a very excellent report was read. The Rev. J. Inglis addressed the meeting, and was followed by others, who if not quite so able were quite as hearty in the cause as himself. The meeting was enlivened with some very good singing, accompanied by several musical instruments. The Total Abstainers are in good heart, and we wish them success in their crusade against drunkenness.

MAORI PROGRESS.—We understand that there is a maori of the name of Edwin White, living at the Waikanae, who has not less than fifty acres of land under wheat and other grain. He has built a good and capacious barn, and has now four Europeans employed in reaping at the rate of four shillings per diem and rations. He and his friends purchased three horses some months ago; he is now anxious to have some cows, and bids fair to become a substantial farmer. It is supposed that some one hundred and fifty acres are under wheat in that neighbourhood. Kapai ra!

The barque *David Malcolm*, Captain Cabel, went out of the harbour on Sunday, January 11th, and sailed on Tuesday afternoon, with a valuable cargo of oil, bone, wool, &c., the produce of this settlement, for London, by way of Auckland, where she was to take as passengers, Captain Fitzroy and family, who return in her to England. She will be shortly followed by the *Nelson*, which is being loaded with despatch, her cargo being all ready.

A SUPERIOR HERD OF ONE THOUSAND HEAD

OF VALUABLE AND SELECTED CATTLE, IN THE DISTRICT OF LIVERPOOL PLAINS, TOGETHER WITH RIGHT OF STATION.

MR. MORT
Has received instructions to sell by public auction, at his Rooms, George-street,
TO-MORROW, THE 24TH INSTANT,
At twelve o'clock
(immediately after the sale of cattle and sheep with stations at Moreton Bay),

The following lot of well-bred and most superior cattle, viz. :—
300 COWS } as per muster of 1st July, 1845.
152 Heifers, 2 to 3 years
176 Ditto under 2 years
74 Aged bullocks
103 Bullocks from 2 to 4 years
190 Steers
7 Bulls (amongst which is the imported thorough-bred Bull "Jasper," per *Ruby*, and two half-bred bulls).
1002 Head

These cattle are all particularly quiet, and the cows were selected by a late proprietor from various herds in the colony, at a very great cost. Five of the bulls have been recently purchased, and with the imported bull *Jasper* are quite new to the herd.

Upwards of 200 calves have been dropped since the muster of 1st July last, the greater part of which will be given in, calves under six months not being counted; together with the calves under six months, there will also be given in two stock horses, the right of brand, and also

THE RIGHT TO A SPLENDID RUN.

Consisting chiefly of extensive grass plains, the whole of which are abundantly watered.

THE IMPROVEMENTS
comprise seven substantial yards, with five railed fences, five acres of cultivation ground, enclosed, two large horse paddocks, and a good hut and garden.

☞ The recent discoveries made by R. Mitchell, Esq., the Commissioner of Crown Lands, prove the locality of this station to be most favourably situated for travelling cattle to the high priced market of South Australia, in addition to which the steadily increasing demand for cattle in the Sydney markets, and the consequently improved prices to be obtained (£6 per head being now asked for fat cattle) must show most satisfactorily that stock like the herd now offered, coupled with the right to so splendid a station, is an investment as safe as it will undoubtedly prove remunerative.

THE STATION
is situated on Byron Plains, in the district of New England, within two days' journey of Armadale, and intersected, for five miles, by the waters of the River Frazer, on either side of which are beautiful ridges of open box forest, where the sheep can be depastured in flocks of 1200 to 1500.

In addition to the never-failing supply of water obtained from the river, there are numerous creeks, affording even in the driest seasons an abundant supply; and it is a fact worthy of note, that a drought was never known upon this station.

The improvements upon the station consist of a four-roomed verandah cottage, a stock-yard, splendid cultivation paddock, securely fenced in, and capable of growing sufficient wheat for the establishment; a wool shed huts, hurdles, &c. There is also upon the station a stack of wheat, and supplies just gone up to carry on the station for twelve months. The wheat will be given in, and the supplies may be had at a valuation, if the purchaser wishes it.

☞ The neighbourhood is highly respectable, the run being surrounded by the stations of Messrs. M'Intyre, Sinclair, Wyndham, &c.
